

Information Sheet - Data Downloads

General

All the data you enter and files you attach to your myQuality system are available for managers to download as and when required. The Registers menu contain a link to the Download Data page and the records for each file are available as a CSV file. Any files that are attached to your records are each available as a separate download.

Data Files

The following list summarises the myQuality data records that are available for download. This is a comprehensive list that includes all records and files that have been submitted to the site. The Record ID provides a method of linking the files to the data record.
